7. LENGTH OF OBSERVATION 1 1/2 hrs-2 hrs	8. NUMBER OF OBJECTS 1	9. COURSE N to E
10. BRIEF SUMMARY OF SIGHTING Four lights flying in winged formation. Consistent w/our policy concerning One hour after initial sighting, brighter cases of one witness without necessary light began to transmit red dots. Obj 110'-tional qualifications, this case is ing at fantastic rate of speed.		11. COMMENTS In sufficient evidence".

ATIC FORM 329 (REV 26 SEP 52)

Dallas 18, Texas  
Feb 8, 1959  
Air Technical Intelligence Center  
Wright-Patterson Air Force Base  
Dayton, Ohio.

Dear Sirs,

I am writing you to report an observation I made on the night of May 27, 1959. I give it to you in my own words.

On the night of May 27, 1959 at 9:30 P.M. I looked out of the car window. I saw four lights. The night was cloudless and it had been no bad weather. I thought they might be reflections on the glass so I rolled down the window, they were still there. They seemed to be going at a fantastic rate of speed. I will not give my guess at what speed they were going. It would be too fantastic. They seemed to be moving in a weather-like direction. The lights were in a winged T formation all perfectly spaced. At 10:30 P.M. the brightest light of which was fading, began to transmit radio waves. I watched until they faded away at 11:00 and heard no more longer than 11:30 a bright white flash

arose went about a mile up took  
ninty degree angle high and then  
went back down in the space placed  
where thirty minites ago the ~~the~~  
brightest of the four lights  
went down beyond the horizon I have  
no explanation of what they were. That  
is why I am writing you. Could you  
please give me one explanation.

Your friend,

A thick black horizontal redaction mark consisting of several overlapping horizontal strokes.

UFO ANALYSIS SHEET

*39*

Location DALLAS, TEXAS

Date 27 MAY 1959 Hour (Z) 0330Z 2130

WX CLEAR

Description 4 LIGHTS FLYING IN WINGED  
FORMATION

Direction of Motion GENERALLY NORTH TO SOUTH

Satellite: (AFCIN-4F3, Phone 69219) IN SIGHT 1 1/2 HOURS

Astronomical Phenomena (Meteor, Comet, Planet, etc) IN SIGHT

ONE AND ONE HALF HOURS

Radar Analysis (AFCIN-4E1) N/A

Natural Phenomena (Ball Lightning, etc) IN SIGHT ONE

AND ONE HALF HOURS

Aircraft, Balloons, Airships, etc. IF MOVING ALWAYS IN THE SAME DIRECTION  
AS INDICATED BY THE WITNESS 1 1/2 HOURS IS TOO LONG FOR AIRCRAFT.

Other PROBABLY A BATTERY OF SEARCHLIGHTS -

Evaluation of Source Reliability Unknown.

Analysis and Conclusions:

IT IS PROBABLE THAT THE WITNESS SAW A  
BATTERY OF SEARCHLIGHTS - HOWEVER THE  
INFORMATION IN THE REPORT IS SICKENING AND  
CONTRADICTORY. CONCERNING CASES OF ONE WITNESS WITHOUT  
EXCEPTIONAL QUALIFICATIONS THIS CASE  
IS CLASSIFIED - "INSUFFICIENT EVIDENCE"
